# ***Welcome to Paul Flood***

## ***Safety Systems***

- The 1<sup>st</sup> session: Thursday, August 23<sup>rd</sup> from 9.30 – 11.00
- The 2<sup>nd</sup> session: Thursday, August 30<sup>th</sup> from 9.30 – 11.00
- The 3<sup>rd</sup> session: Thursday, Sept 6<sup>th</sup> from 9.30 – 11.00

**School : Specimen Hill Primary School**

Contact : Hayden Polglase : School P&P Leader

During the 3 sessions of the project you will learn about being a Fire Safety Officer. The experience and skills you learn will help decide if working in Emergency Services is the type of job you would like.

In the three sessions at Paul Flood Safety Systems, you will :

Learn about fire safety

- Be in charge of evacuating a building
- Identify a range of fire safety equipment
- Use a fire blanket
- Use different types of fire extinguishers

Occupational health & safety is important as well as your comfort.

So please:

- Wear your uniform with full covered in shoes (no toes or top of foot to be exposed)
- Bring and wear a name tag – your first name only
- Bring a pen, your Project Book **AND** your enthusiasm
- Make sure you listen to all instructions and follow directions
- Bring a small snack to eat at the end of the sessions

You will be working with: Paul Flood and Brittany White from Safety Systems and ..... from Specimen Hill Primary School will be working with you too.

We look forward to showing you a new experience at Safety Systems, helping you to develop your self confidence and learning new skills.

# Session1

## What will happen :

On arrival, you will be welcomed by the Safety Systems staff and learn about being a Fire Safety Officer. These experiences and skills will help you understand job roles job in emergency services.

There will be about 30 minutes of classroom learning. Then there will be about one hour of practical exercises. Today you will practice being the Fire Safety officer and be in charge of evacuating the building.

## **What we will learn :**

- Introduction to Fire Safety Concepts
- How to read an Evacuation Plan
- Use the Evacuation Procedure to evacuate the building

Time for a hot chocolate, a small snack (from home) and reflect on what you have seen/done

### **At least 3 things I discovered during the session:**
